- WAINSCOTINGS
- POST & BEAM CONSTRUCTION
- FACTORY FINISHED EXTERIOR SIDING

New Cedar-Lam T&G!

Cedar Valley newest addition to our line of innovative WRC products is Cedar-Lam. This engineered T&G veneer product has a stable plywood backer and clear western red cedar face. The face comes in either a 100% VG Clear cedar or “A & Better” M.G cedar. The plywood backer is a CDX rated Western Spruce or Doug Fir sheathing. The Cedar comes from managed forests in Vancouver, BC. This T&G paneling would make a great addition to your cedar line. The uniqueness is the tight grain face engineered to a stable plywood backer. Our manufacturing process provides an *uninterrupted face* up to 16-foot long, with even length structures of 8, 12, and 16 feet. We will gladly mix and match with our shingle siding panels and accessories to ship full trucks!

Product: Solid all clear VG or MG Kiln Dried WRC veneer face laminated to a stable plywood substrate.

V.G.Pattern: 1X4 (non-stock) & 1X6 (stock) V2E smooth face T&G Clear paneling sized to 5/8” X 3 3/8” / 5 3/8” respectively. (1x8 available special order in 8-foot lengths only)

Finish: Western Red Cedar smooth face moulded to a fine open grain finish that is ready for staining. R/S face is available by order.

Dried: KD to 8%-10%

Lengths: 50%- 8’s, 25%-12’s, 25%-16’s Alt. choose all 8’s, 12’s or 16’s
