

Introducing, Cedar Valley "Easy-Stack" Shingle Siding

Prime Grade WRC Shingle Panels

Even Buttline Open Keyway Primed

Staggered Buttline Open Keyway Primed

Description

New "Easy-Stack" Prime Grade 1-Course Factory finished economy siding!

1/Course 6" Exposure factory finished panels are a low maintenance siding that adds beauty, texture, durability, and insulating qualities to new or existing structures. Available with an "Easy-stack" blind nail system, this panel saves time and labor on all jobs. Just 25 panels cover 100 sq feet.

Recommended Use

For large projects where an extremely low maintenance product is desired.

Available Styles

Even or Staggered Buttline-Open Keyway with an oil primer and acrylic topcoat.

Available Colors

Factory Finished in any of our 76 available colors.

BENEFITS OF FACTORY FINISHED PRODUCTS

- Extended coating *and* panel warranties!
- Assures consistent finish color throughout job
- Helps control jobsite delays due to weather
- Saves time & money, reduces job scheduling problems
- Absorbs 4 times more stain than cement sidings
- Totally eliminates early stages of U.V. degradation which greatly effects the lifespan of a coating
- Helps protect material on jobsite prior to installation
- **REAL WOOD FOR THE PRICE OF CEMENT!**
